## CALL FOR BIDS - INNOVATION AWARDS

The 2025 edition of The Clean Show cordially invites exhibiting companies to submit their most recent developments for The Clean Show Innovation Awards. These Awards will be presented to honor exceptional performance in the fields of research, new materials, products and technologies. The awards have been designed to make cutting-edge developments visible, promote unconventional thinking and intensify dialogue between researchers, manufacturers, and users.

An innovation must have been discovered or invented, developed, introduced, used and, last but not least, institutionalized. The Innovation Awards are presented in the following categories:

- Best New Application
- Best New Product
- Best New Technology for Sustainability
- Best New Technology for Automation

Registration to participate in The Clean Show Innovation Awards is done through page 2 of this document. Once the application has been completed please submit to the contact below. The winner will be determined by a jury of experts who will assess the contest entries submitted. The jury's decisions will be based on a simple majority of votes cast and will be final for all participants. The jury will not provide reasons for not selecting individual entries.

Winners will receive:

- A special recognition during The Clean Show.
- Acknowledgement on [www.thecleanshow.com](http://www.thecleanshow.com) and on The Clean Show social media channels.
- The right to use The Clean Show Innovation Award 2025 logo (word and figurative mark in a file form) in publications.
- An official award
- Dedicated press Release

**Deadline for submission is July 18, 2025 via the emailed form.**
